

ForMetis

*“BPM Life cycle met
de DEMO engine”*

DEMO Platform
29 okt 2015

Agenda

1. ForMetis

Enterprise engineers, Casemanagement, DEMO Engine

2. BPM Life Cycle

3. Case Offerte traject: model & simulatie

4. Case Offerte traject: Voorbeeld applicatie

5. Compliance check met Process Mining

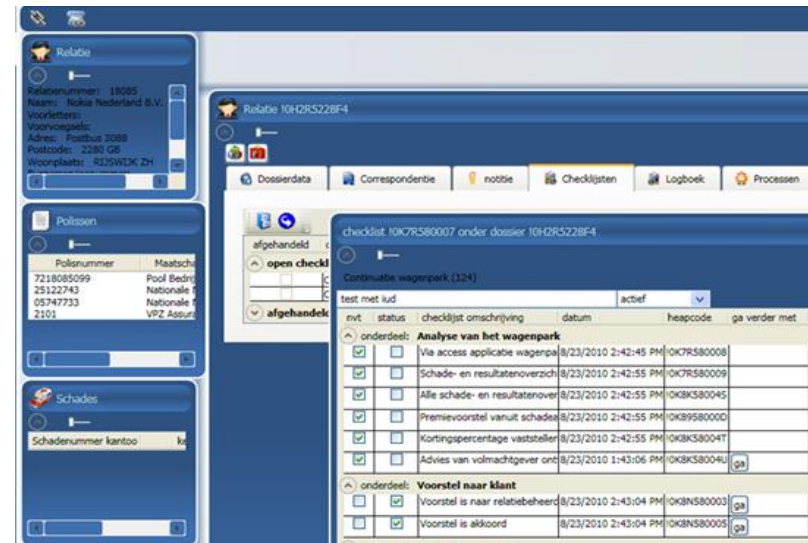

6. Toekomst

ForMetis SlimDossier

Before

After

- Browser
- Postdistributie
- Document Management System
- Scanning
- Printing
- Brieven generator
- E-mail
- Telefonie

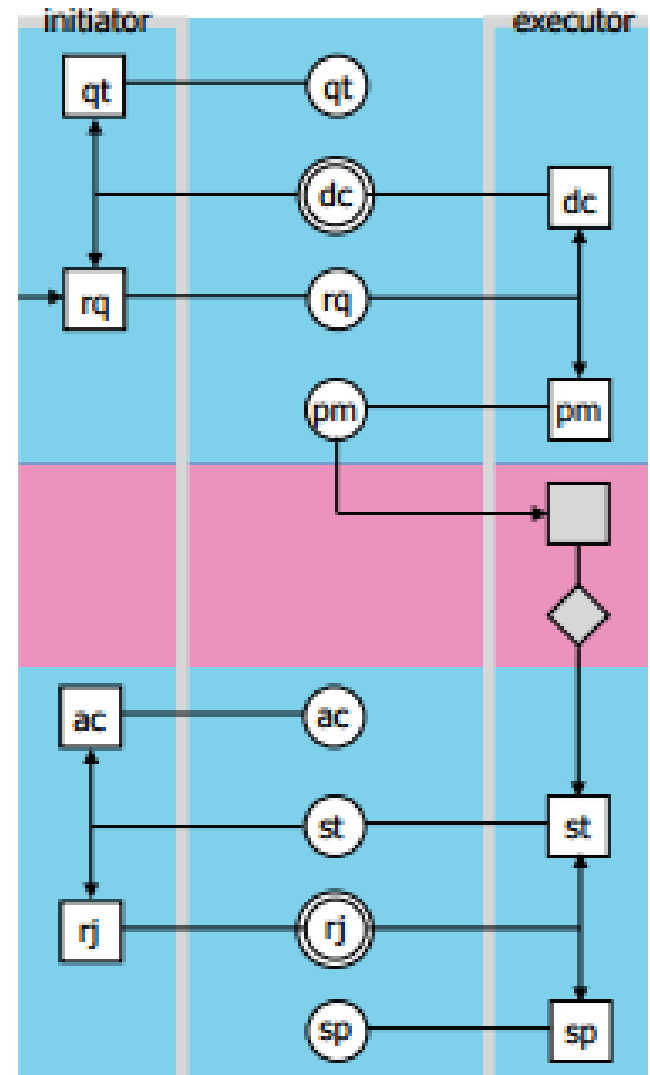

DEMO Engine - 1

Coördinatie van commitments >>
C-wereld

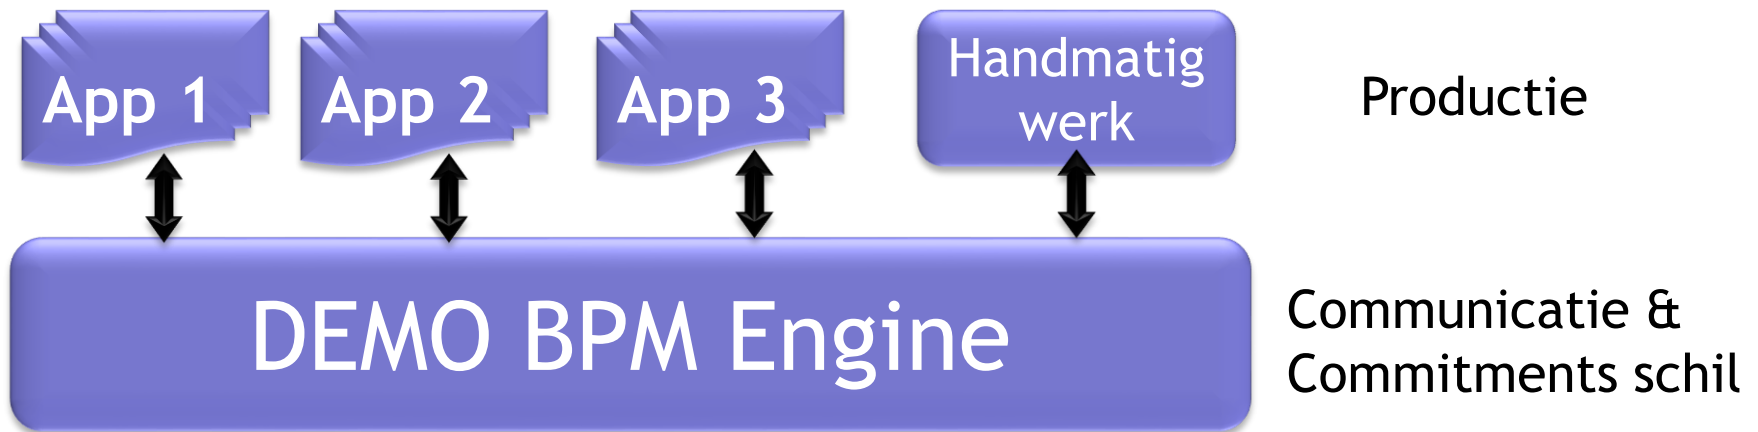

Finite State machine:

- Als persoon X op knop 'Request' drukt, dan is transactie 1 in de staat 'Requested'.
- Als transactie 1 in staat 'Requested' is, dan kan persoon Y op knop 'Promise' of 'Decline' drukken.

Communicatie gaat óver
Productie (execute fase) >> P-
wereld (SlimDossier, ERP, etc)

DEMO Engine - 2

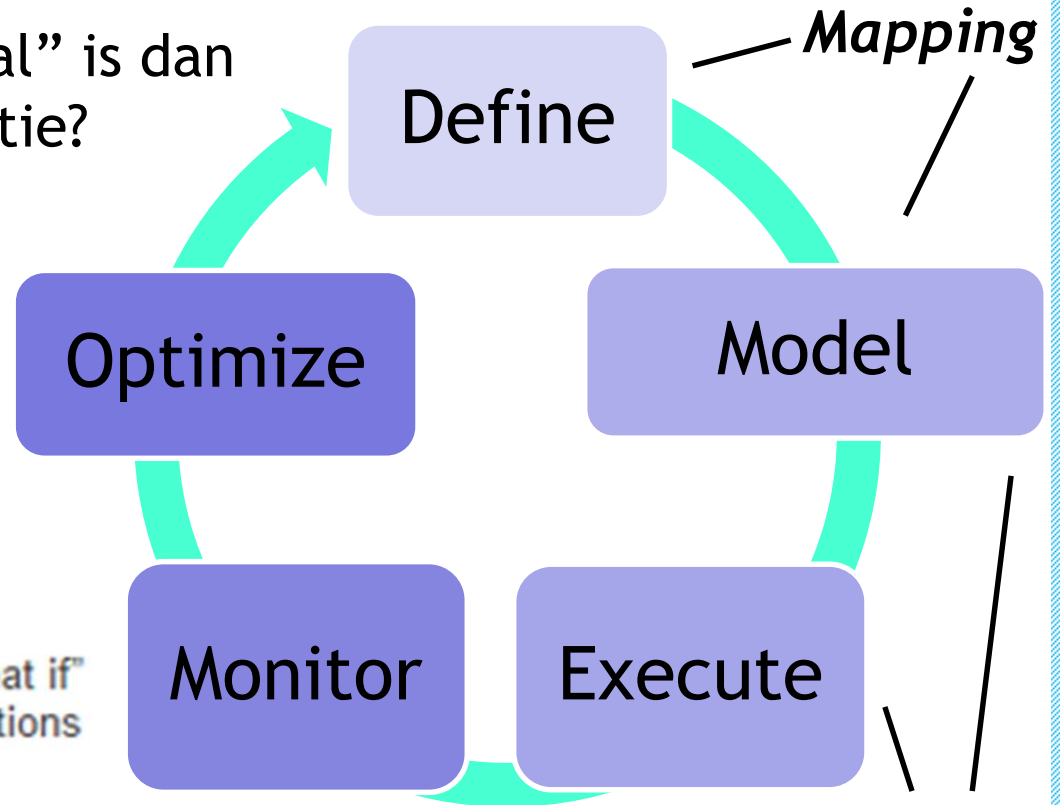

- In applicaties gebeurt de productie
Vastleggen data in dossiersysteem, ophalen data uit ERP, invoeren factuurgegevens in financieel system, etc
- DEMO Engine orkestreert procesflow.
‘Wie doet wat wanneer’

BPM Life Cycle

Hoe “optimaal” is dan
je optimalisatie?

Wat is de basis van
je optimalisatie?

BPM Lifecycle Phases: DMEMO

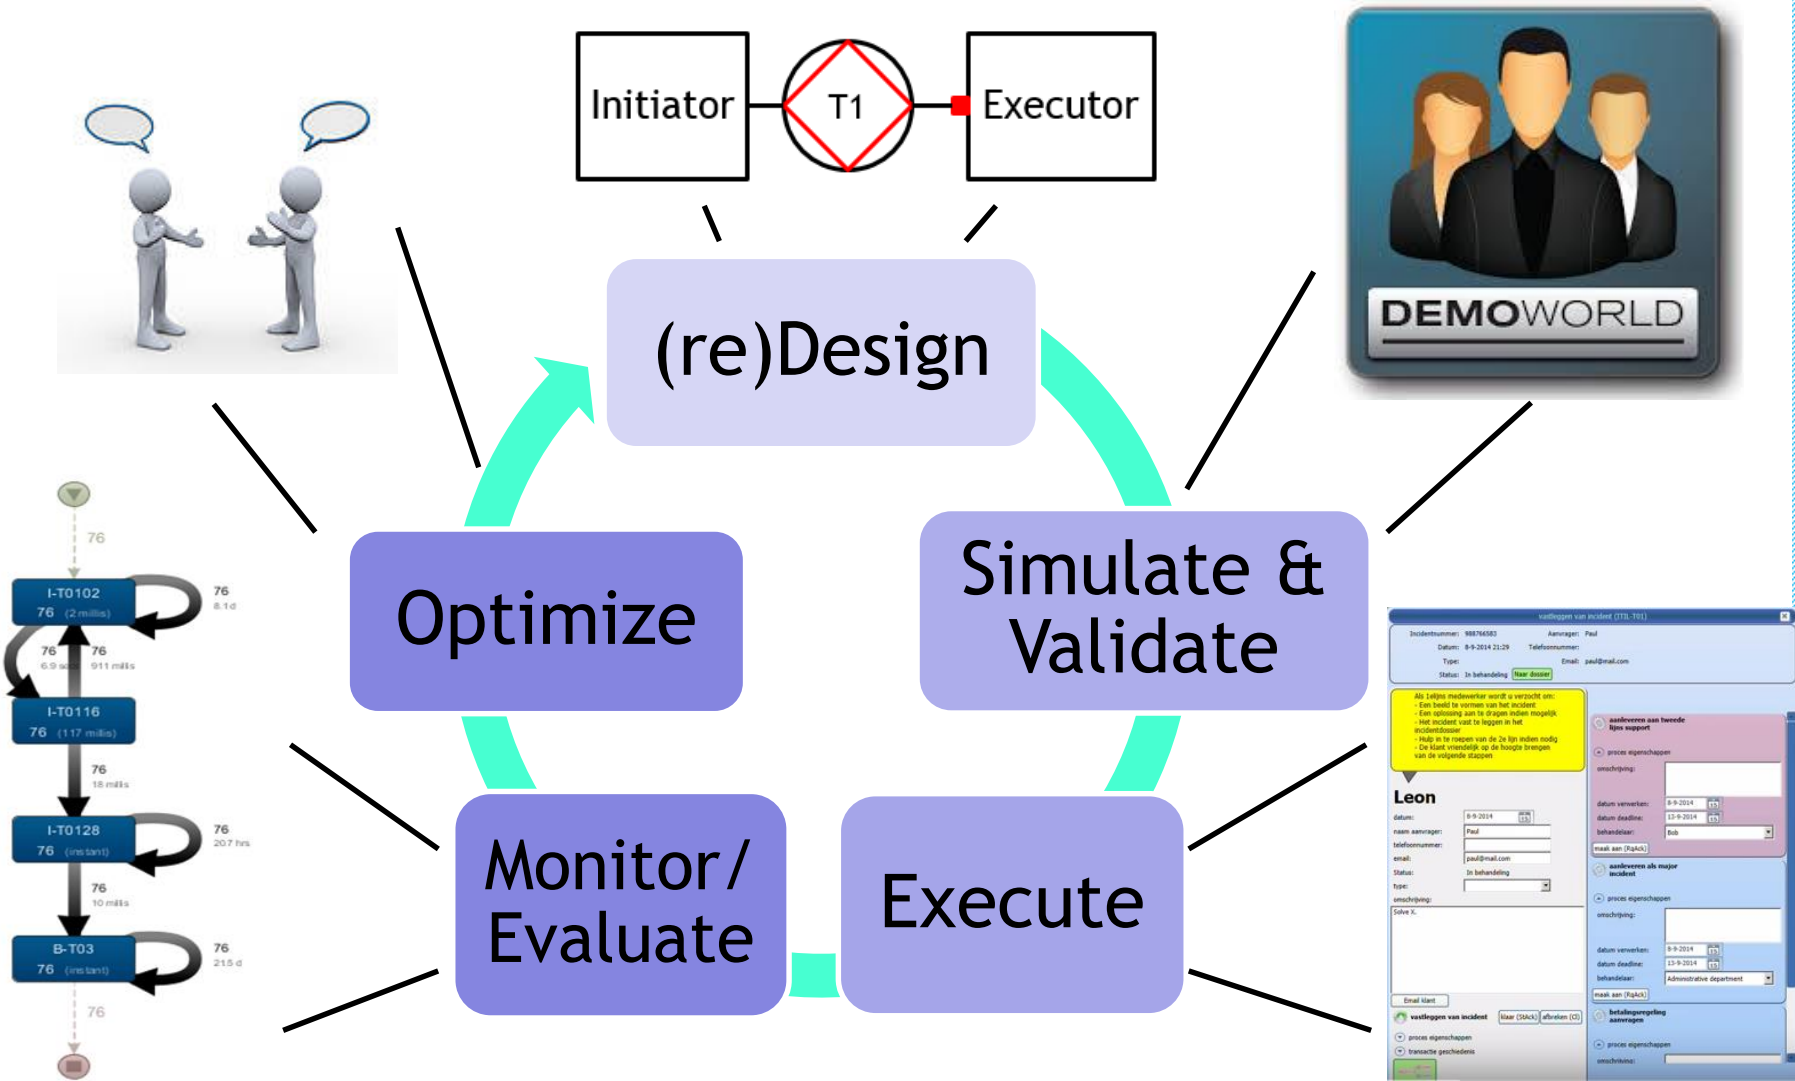

1. **Define** – As is and to be modeling
2. **Model** – analyze process, perform “what if” analysis and compare the various simulations or process options to determine optimal improvements.
3. **Execute** - select and implement improvements.
4. **Monitor** – Periodically monitor the process against establish metrics such as SLAs or defect rates
5. **Optimize** – Iterate for continuous improvement

Hoe meten?

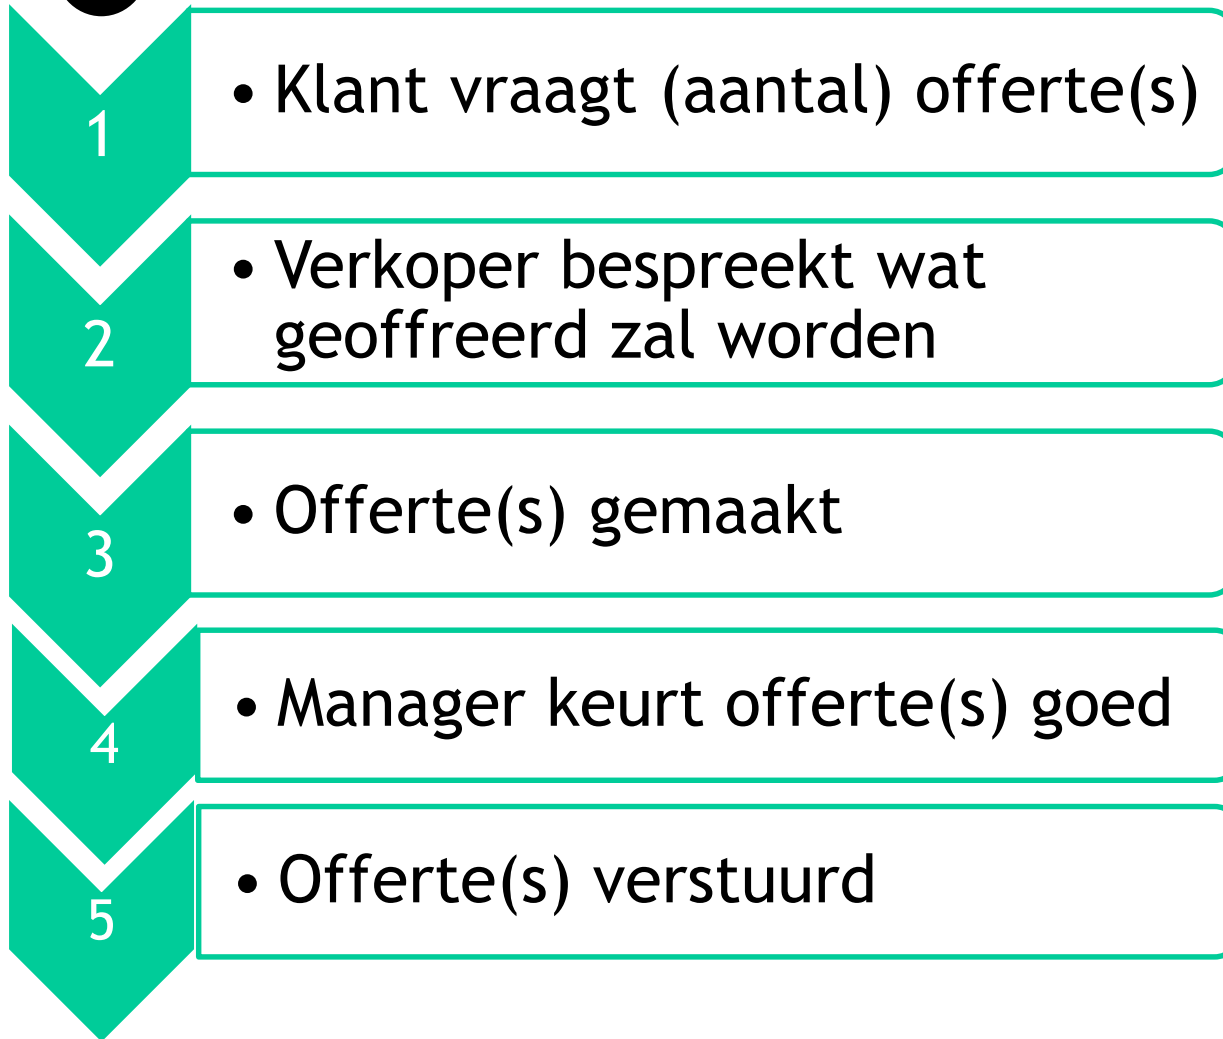

Mapping

BPM Life Cycle 2: ForMetis Style

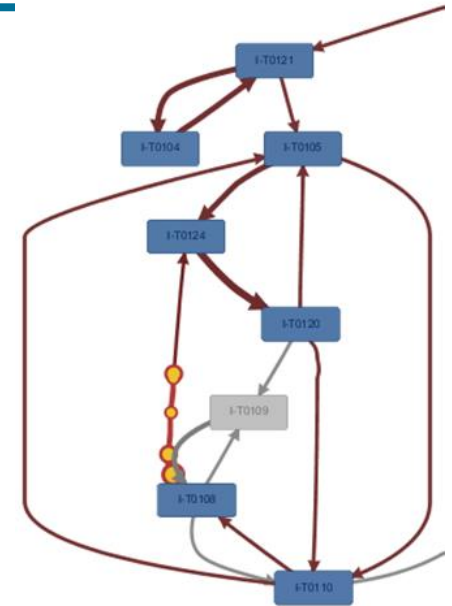

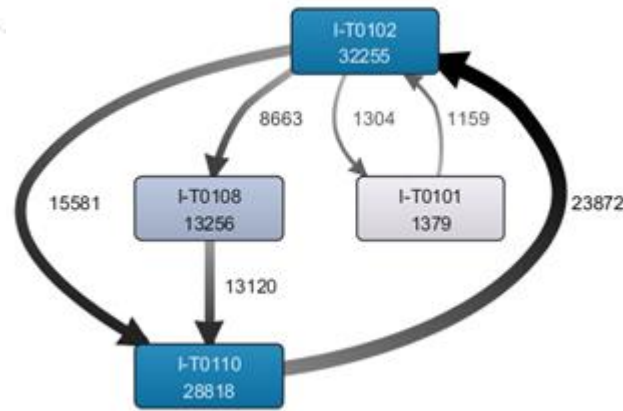

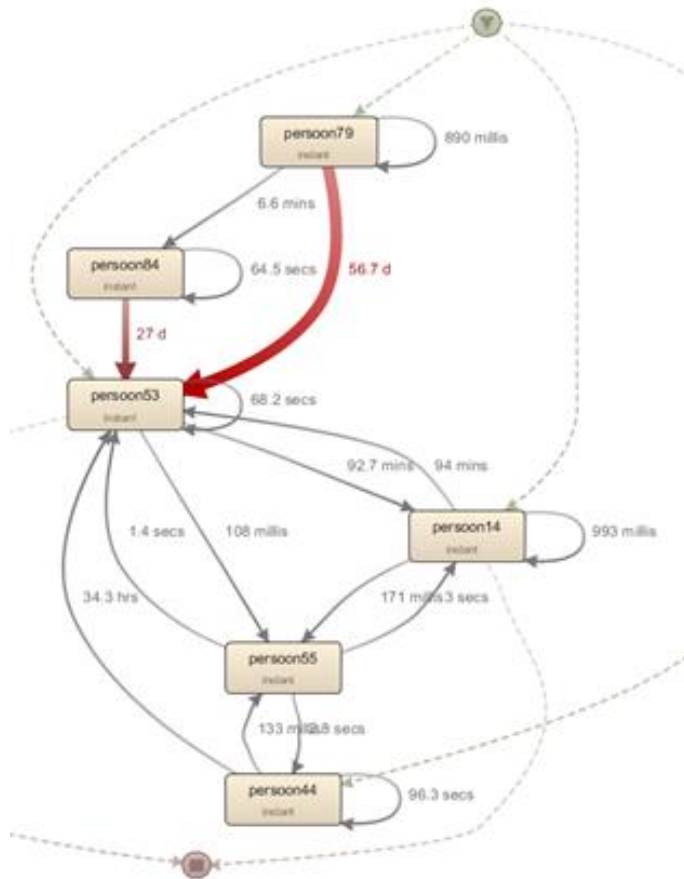

Case: Offerte aanvraag

Process Mining

- Data mining op gelogde procesdata in applicaties
- Gespecialiseerde tools geven representatie van daadwerkelijke procesverloop, van alle denkbare doorsnedes van procesdata.
- Voordelen DEMO BPM engine:
 - I. Eenvoudige mining: Slechts één databron
 - II. Complete procesdata: Alle commitments, inclusief unhappy flow.

Process Mining - 2

Next: Doorontwikkeling DEMO Engine

ATD: Hadden we al

PSD: Nieuw

AM - rules: In progress

FM : In progress. Hangt samen met AM

DEMOworld als consultancy tool...? Wie helpt?
